## Summary:

Full Stack Software Developer With Expertise in both Frontend and Backend Experienced in Leading Cross Functional teams.

## Technical Skills:

- **Frontend – Javascript , React js , Next js ,Redux ,TypeScript**
- **Backend – Node js, Express js , TypeScript , Sequelize**
- **Database – MongoDB , Mysql**

## Experience:

**Technical Lead(TL)- Robx.AI** | May 5, 2024 – January 1, 2025

- **Contributed to the development of AI-powered tools** such as article generators, image generators, and voice synthesis systems, focusing on delivering innovative solutions for enhanced user productivity and engagement.
- **Designed and implemented modular systems**, including functionality for freemium models (e.g., free access to certain features followed by paid plans) and integrated **Stripe payment gateways**, streamlining the subscription process and increasing revenue efficiency by 30%.
- **Worked on educational management platforms**, creating dynamic dashboards for roles such as students and admins, improving user collaboration and operational oversight.

## Projects:

### E-commerce Application:

- Developed a full-stack E-commerce application using the **MERN stack**.
- Implemented **Stripe integration** for secure online payments, enabling smooth transactions.
- Created user roles such as **Admin** and **Customer**, with role-specific functionalities.

### MERN Chat Application:

- Built a real-time chat application using the **MERN stack** with **Socket.io** for seamless communication.
- Designed a user-friendly interface enhancing mobile engagement by 15% for over 10,000 users.
- Designed a user-friendly interface with React and ensured responsiveness across all devices.

**Education: University of Sindh Jamshoro** | Bachelor's in Computer Science | 2020 to 2023
